

## Rain

## The Butterfly Effect

Restless  
Did we fail to start?  
Arrested  
I've got a broken heart  
Broken heart

With my eyes wide open  
Take me back to the start  
With my eyes wide open  
I will lay me down in your arms

Let it rain down on me  
Take me far away from here  
And we'll suffer together  
In your arms I'll lay me down  
Fall into you

Reckless  
Left us torn apart  
Slowly tested  
Can't mend your broken heart

With my eyes wide open  
Lay me down in your arms

Suffer forever with me now
