

Fade Away Gently

The Buttersongs

Loneliness circling
Target black nimbus
I can't complain
Heaven forgave me again
Blowing kisses goodbye
To this planet of the night
Only dreams
Fade away gently

Just wanted a call in midway
To ease the pain
I know I don't deserve her comfort
I haven't yet paid
Blowing kisses goodbye
To a love I'll long for nights
Only dreams fade away gently
Only dreams fade away gently

Time will only tell
Suffer still but carry it all
Hold your head high
It's a walk we all take

Loneliness
Fuck Loneliness
Just wanted a call midway
But it never came
It would have easily eased my every ache and tricked my well being

Blowing kisses goodbye to this planet of the night
Only dreams fade away gently
Only dreams fade away gently
