

Never mind talking
Let me do it
Your hopeless rambling
Won't get me to listen
So just hold your mouth

I love you but you go
Round round round round
And you're dragging me down
You know I like the quiet
Let me show you how

I'll take the reins
We've been on your path for sometime now
I'm not afraid to admit I've done wrong

I love you but you go
Round round round round
And you're dragging me down
You know I like the quiet
Let me show you how

Never mind talking
Let me do it
Your hopeless rambling
Won't get me to listen
So just hold your mouth

I love you but you go
Round round round round
And you're dragging me down
You know I like the quiet
Let me show you how
