

## Stray Dog Strut

The Buttersons

Shaking your tail  
Raising some hell  
Rolling with the pack  
On the wrong track  
In the west end

In your own way  
You can still taste it  
And you're not gonna change  
But why waste it  
Just follow your nose  
Where the crows won't go

And do the stray dog strut  
Forget about your luck  
Oh well, so what  
Do the stray dog strut

You're just another stray  
Take it day by day

You don't mind digging in the trash  
You find your way crawling in the grass  
And you still have the scars from your journey  
But every dog has its day

So do the stray dog strut  
And forget about your luck  
So do the stray dog strut  
Oh well, so what

But you always were afraid  
And would look the other way  
You're just another stray  
Take it day by day

Said I'm shaking my tail  
Raising some hell

And do the stray dog strut  
Forget about your luck  
Do the stray dog strut  
Oh well, so what

And you were always afraid  
And would look the other way  
Just another stray  
Take it day by day
