

Crown

The Cab

When you're feeling lost and want to be found,
wear love like a crown
wear love like a crown
When pieces of you fall to the ground,
wear love like a crown
wear love like a crown
When you've got nothing left to hold
You can call my arms your home sweet home
You're amazing and I'll shout it out
So won't you wear my love just like a crown?
(just like a crown)

When you need a halo, you know that I'll be around

When all of your strength is lost to the night,
yeah I'll be your light
yeah I'll be your light
When you're losing faith, I'll teach you to fly,
yeah I'll be your sky
yeah I'll be your sky
'Cause you are stronger than you know
And I've got all the time to watch you grow
Dying softly but you're living loud
So won't you wear my love just like a crown?
(just like a crown)

When you need a halo, you know that I'll be around

I can still feel you when no one's around
Yeah, I hear your heartbeat through all of the sounds
Just make me this promise and I'll make you my queen
Won't you let me save you like you saved me?

I can still feel you when no one's around
Yeah, I hear your heartbeat through all of the sounds
Just make me this promise

Just like a crown
Just like a crown

When you need a halo, you know that I'll be around

(Just like a crown)
Just like a crown
(Just like a crown)
Just like a crown

When you need a halo, you know that I'll be around

I can still feel you when no one's around
Yeah, I hear your heartbeat through all of the sounds
