Do your times like guns
I had no where too long
And this world can get so lonely
Yeah the paper and pen were my two best friends
Cause the sad songs understood me

The harmony had all my dreams
Were keeping me from sleeping
Because of something so fun
Being young and being dumb cause you're not afraid of feeling

Yeah all of my demons are kicking and screaming But I'll never leave them behind Yeah maybe I'm crazy but don't try to save me Cause I've never felt so alive

Yeah when they knock ya down, kid you gotta stand up $\mbox{\sc Stand}$ up

And when they got ya down, gotta make your own luck, own luck So tell me I'm out of my mind, give me a sign Take it one step at a time, I know it's gonna be fine Open your eyes, shut up and give it a try When they knock ya down, kid you gotta stand up Stand up

Everybody go ooooooo Everybody go ooooooo

Yeah your eyes like knifes
I had no where too high
Yeah this world can cut you open
But all the scars they prove that I follow way through
So I always keep them showing

Sanity is suicide And crazy on the legends But yeah I'd rather have fun being young and being dumb Than be saved a spot in heaven

Yeah all of my demons are kicking and screaming But I'll never leave them behind Yeah maybe I'm crazy but don't try to save me Cause I've never felt so alive

Yeah when they knock ya down, kid you gotta stand up Stand up
And when they got ya down, gotta make your own luck, own luck So tell me I'm out of my mind, give me a sign
Take it one step at a time, I know it's gonna be fine

Open your eyes, shut up and give it a try When they knock ya down, kid you gotta stand up Stand up

Everybody go ooooooo Everybody go ooooooo

All of my demons are kicking and screaming

But I'll never leave them behind Yeah maybe I'm crazy but don't try to save me Cause I've never felt so alive

Yeah when they knock ya down, kid you gotta stand up Stand up
And when they got ya down, gotta make your own luck, own luck So tell me I'm out of my mind, give me a sign
Take it one step at a time, I know it's gonna be fine
Open your eyes, shut up and give it a try
When they knock ya down, kid you gotta stand up
Stand up

Everybody go ooooooo Everybody go ooooooo Everybody go ooooooo
