

# Desperado

The Cactus Blossoms

Tell me baby  
What I gotta do  
I've been waiting for a lifetime  
To find a girl like you  
You're so cool  
Baby, I'm no fool  
Takes one to know one  
And I found you

I'm just a desperado  
Down by Mexico  
I've been everywhere you wanna go  
I'm just a desperado  
Always been alone  
You're the only one who brings me home

I'm just a desperado  
Down by Mexico  
I've been everywhere you wanna go  
I'm just a desperado  
Always been alone  
You're the only one who brings me home  
You're the only one  
You're the only one  
You're the only one who brings me home

Tell me baby  
What I gotta do
