

# All About You

The Call

I was never too wild about big shots  
I was never too calm about pain  
I was never too cool about the heat  
But I'm

I was never too wild about politics  
I was never too keen on school  
I was never too easy with strangers  
But I'm easy with you

God, I'm mad about you  
Love is all about you

I was never too hot on earthquakes  
I was never too crazy about bars  
I was never too mad about power  
You can take it too far

I was never too hungry for loneliness  
I was never too jealous about jewels  
I was never too good with crowds  
But I'm good with you

God, I'm mad about you  
Love is all about you

So would you enter, please  
Would you take me, please  
Do you hear my pleas?  
Oh please  
Oh please  
Oh

I was never too big on fighting  
I was never too crazy about fear  
I was never too made about money  
You can hold it too dear

I was never too wild about poverty  
I was never too wild about rules  
I was never too hungry for hate  
But I am hungry for you

God, I'm mad about you  
Love is all about you  
Oh, you  
Oh, you  
Oh, you  
You  
You
