

## Day Or Night

The Call

Somewhere between pain and pleasure  
The day goes by  
Somewhere between word and action  
The day goes by  
You can try me without witness  
You can tie me to the stake  
I may burn, but I'll still be with you  
Day or night, night or day  
Don't you see you're the last to know  
Your mind is dead, your heart won't grow  
Nice and steady, then weeks behind  
I've seen you there, I've seen you hide  
I wanna know your mind's on me  
Look at me now, face towards me  
If you want me, you can find me  
Day or night, night or day  
The hours slipping slowly by  
I look inside again  
I see the emptiness exposing  
All I have, all I am  
I love the whispers in your eyes  
I look to stay alive  
Don't you want me, you can have me  
Day or night, night or day  
Somewhere between pain and pleasure  
Somewhere between heel and toe  
Someone walks the straight and narrow  
Another lets the demons go  
How can I lie here without feeling  
You lift me up, you make me whole  
I can trust you, will you look for me  
Day or night, night or day
