

## Surrender

### The Call

I'm honored just to know you  
God, I love to hear you sing  
I might weaken in times of trouble  
But you know I still expect great things  
I was so blind so long  
I could not see a thing  
But I volunteered for slavery  
I locked myself away  
I was so blind, so long  
God, I miss you!

Well, I know it's gonna end in laughter  
Son I know it's gonna end in joy  
The surrender in the garden  
Don't you run death poet no more  
I was so blind so long  
I could not see a thing  
But if this life goes on forever  
We gotta get thru this together  
I was so blind, so long  
God, I miss you

Well, there's really not much to us  
When you get right down to it babe  
We stand or fall together  
Take the blows that come our way  
I been walkin' in the spirit  
Singin' with the heavenly choir  
You know love won't hide forever  
I wouldn't give my dreams away  
I've been so blind, so long  
Love, I miss you!
