

## Think It Over

The Call

Think it over  
Before you say goodbye  
(Ooh ooh) Think it over  
Before you say goodbye

You've always been a part of me  
We watched the seasons turn  
You've gotten to the hear of me  
And I'm sure to learn  
And I'm sure to burn

Think it over  
Keep my heart in mind  
(Ooh ooh) Think it over  
All the ties that bind

And though this time is hard for me  
The secrets and the shame  
We share a precious history  
And we share a name  
And we share the blame

And all the foolish lies  
Come back to life  
Right before my eyes  
I guess you never know  
The face it never shows  
Truth comes rushing in  
But not like this before  
I'm trying to explain  
It may never come again  
Love walks out the door

Think it over  
Before you say goodbye  
(Ooh ooh) Think it over  
Give me one more try

I've never been much good at talking  
I never took the time  
But now this time  
You say you're walking  
Life's unkind  
And love ain't blind
