

# This is Your Life

## The Call

This is your life  
This is your world  
Beginning to end  
This is the price of heaven, our hope  
This is the time  
This is your life

Hey hey hey!

The push and the pull  
We give and we take  
We rise and we fall  
We bend 'til we break  
The future is ours  
The promise is true  
This is your life

I've seen it before  
I've seen many times  
An impossible task  
Cut down to size  
We stand in the breach  
We fight at the front  
This is your life

Yeah!

This is your life  
This is your world  
Beginning to end  
This is the price of heaven, our hope  
This is the time  
This is your life

We've all grown up together  
It's a shame we grow apart

Oh!

We've all grown up together  
It's a shame we grow apart

This is your life  
This is your world  
Beginning to end  
This is the price of heaven, our hope  
This is the time  
This is your life

It's a world without end  
A stroll through the fire  
The journey depends  
On the length of the wire  
We're rarely at ease  
The pressure is high  
This is your life

And so it begins  
We reach for the stars  
Lift up your voice  
Freedom is ours  
The spirit's alive  
Oh, what a ride!  
This is your life

This is your life  
This is your world  
Beginning to end  
This is the price of heaven, our hope  
This is the time  
This is your life

This is your life  
This is your world  
The struggle begins  
This is the price of heaven, our hope  
This is your chance  
This is your life
