Cloudy Sky

The Cardigans

I'd catch some stars for you And just for you I'd paint the grey sky blue And just for you

So don't tell me you want the rain

From a cloudy sky To wash away the pain That I've given you again I've always tried to find

What satisfies your mind But I will never know Where you are to go But I want you to know

Do you want a golden ring? I would buy you anything...

I'd read some poems for you Just for you I hope they won't make you blue Like they used to do

Don't tell me you want the rain Don't tell me you want the rain
