In the Round

The Cardigans

I am young and I'm alive I want to talk about things I am young and I own my life I need to talk about it, baby I am one but I asked for two I didn't get anything This puppet's lonely without you It's tough to walk without strings I do my dance in the round I'm right on track but this state is frail You slip out and redial I do my dance in the round So people clap your hands Clap your hands

I wanna do it right this time I wanna step in time I wanna do it right this time, yeah! Clap your hands I gotta get it right this time I wanna step in time I wanna do it right this time I do my dance in the round

I am young, coming at you live People gonna talk about me When I'm done, please hang me high For everybody to see 'Cause I do my dance in the round So people clap your hands I wanna get it right I'm dyin' to get it right I wanna get it right I'm dyin' to get it right
