

# War

## The Cardigans

Oh, come crush me now  
Don't leave  
No one has won this war  
This time

No, don't sleep tonight  
I'm hurt and ready for fire  
Don't leave me up  
Alarmed and ready to die

Come on, it's war, come on  
Come on, come on, come on  
Come on, it's war, come on

Please, I'm almost done  
Don't retreat  
I've loaded my gun  
With blood, with...  
Hear the dust roll over the floor  
Why must you sleep?  
Come crush me now  
I'm armed  
And ready to die

Come on, it's war, come on  
Come on, come on, come on  
Come on, it's war, come on  
Come on, fight me, come on  
Come on, it's war, come on

You look so peaceful when you sleep  
Beautifully  
It's such an easy way to choose  
You loose

Come on, it's war, come on  
Come on, come on, come on  
Come on, fight me, come on  
Come on, come on, come on  
Come on, it's war, come on  
Come on, come on, come on  
Come on, it's war, come on

You look so peaceful when you sleep  
Beautifully  
It's such an easy way to choose  
You loose
