Oh, come crush me now Don't leave No one has won this war This time

No, don't sleep tonight
I'm hurt and ready for fire
Don't leave me up
Alarmed and ready to die

Come on, it's war, come on Come on, come on, come on Come on, it's war, come on

Please, I'm almost done
Don't retreat
I've loaded my gun
With blood, with...
Hear the dust roll over the floor
Why must you sleep?
Come crush me now
I'm armed
And ready to die

Come on, it's war, come on Come on, come on, come on Come on, it's war, come on Come on, fight me, come on Come on, it's war, come on

You look so peaceful when you sleep Beautifully It's such an easy way to choose You loose
