

## David Venus

### The Cassandra Complex

Good evening, ladies and gentlemen  
I wanna thank you for making this possible  
All you slimy creeps out there  
All you sleeping crimes

When I grow up I'm gonna stop growing up  
I'll stop learning when I leave school  
Get back in the pool my little amoebas  
You can't get in here with genes

You gotta have big ones if you wanna survive  
You gotta have big ones in Europe  
This is a limited theatre of war  
Strictly members only

Helicopters in the sunlight  
The morning sun

Well, here it is the frightening truth  
All of human life is here  
All of human life is here  
Right here  
Here it is

The frightening truth  
The Hallowe'en squad  
Suburban god's dinner, suburban god's dinner  
Well, I ain't no sinner, but I'm getting thinner  
I'm getting thinner, I'm getting thinner  
Bring me a black goat baby, I'm getting thinner  
Well, I sure as hell ain't no sinner  
But I'm getting thinner  
Spiritual anorexia, spiritual anorexia, baby  
Spiritual anorexia, I'm getting thinner

I'm a guilt-edged golddigger with guilty feelings  
Naked breakfast with my clothes on

That's nice lipstick baby, but you're wasting it on the wrong guy

Yes, folks, on the show tonight  
All of human life, all of human life  
It's all true, it's all true

Jesus wants me for a sunbeam  
Jesus needs more sunbeams  
He's turning us all into sunbeams  
To brighten up his day

Won't be no days without the sun  
Won't be no sun in the days to come  
Won't be no sun in the days to come  
Won't be no sun in the days to come

Helicopters in the sunlight  
Helicopters in the sunlight  
The morning sun

Singing goodbye to the apes  
Sticks and stones might break my bones  
But evolution will never harm me

Helicopters in the sunlight  
The morning sun

Won't be no days without the sun  
Won't be no sun in the days to come
