

# Symphony for the Devil

The Cassandra Complex

We are the ones  
Better the devil you know than the God you don't

We stand on our hind legs  
We are human  
We are free, we are free  
Better the devil you know than the God you don't

We don't want your God  
We don't need your God  
We hate your God  
Better the devil you know than the God you don't

We are the ones who made the world  
We are the ones who hold the world  
We are the ones who walk across the world  
Better the devil you know than the God you don't

We don't work for you  
We don't play for you  
We don't slave for you  
Better the devil you know than the God you don't

We will take your love  
We will take your hate  
We will take your power  
Better the devil you know than the God you don't

We are the ones  
Better the devil you know than the God you don't
