

When I Fall In Love

The Cassandra Complex

When I fall in love...

When I fall in love
It will be forever
Or at least for a day
If you will only say
That's enough for you
To reach across the wires, hold my hand
And understand
That's enough for you

That's enough for me
That's enough for me
That's enough for me
That's enough for me

I've always been romantic
Though my friends all laugh
And if you ask me for my autograph
That's enough for me
So won't you give me a chance
Just one chance
That's enough for me
That's enough for me
