

Carry on the Flag

The Casualties

We carry on the flag
We're still fighting strong
While others are gone
We're here to unite
That is the reason we're here tonite
We carry on the flag
We're still going strong
While others are gone
We're to unite
That is the reason we're here tonite
We carry on the flag
We're still going strong
While others are gone
We're here to unite
What's in my heart must come out tonite
We carry on the flag
We're still going strong
While others are gone
We're here to unite
That is the reason we're here tonite
