

Lost

The Casualties

Your life is not forgotten
Your memory will carry on
The stories and the drinks we shared
They live forever
We thought we knew it all
That we would never fall
Death will come again and
Together we sing along
Lost but not forgotten
Your memory will carry on
Lost but not forgotten
Your blood runs through my veins
Riding on the high life
Too fast to be controlled
We lived our lives for chaos
Our cups were always full
Good times and the bad
You were always there for me
We had each other's backs
There's no one left to blame this on
Lost but not forgotten
Your memory will carry on
Lost but not forgotten
Your blood runs through my veins
Lost, lost, lost but not forgotten
