

A Letter

The Cats

Now I've been away from you a long time But is it all over? You
r love meant all to me It's never been Out off my mind

And I've been trying to call you every day I wanna to talk it o
ver Cause ever since that day You came my way I can't forget us

Oh I keep yearning for the day we'll meet again now Oh I rememb
er all the days we've been together

Every night I keep on trying But there is no need for lying I k
now I can't forget I remember all the times We spent walking we
were happy I know I can't forget

Now I'm sitting here writing you a letter I wanna come over The
shadow of your smile Tells me that I I've been blind

Oh I keep yearning for the day we'll meet again now Oh I rememb
er all the days we've been together

Every night I keep on trying But there is no need for lying I k
now I can't forget I remember all the times We spent walking we
were happy I know I can't forget
