

## It Turnes Me Inside Out

The Cats

In a way I'm glad it's over  
Even though it's gonna hurt me when you're gone  
I can learn to live without you  
Give me time and I can make it on my own  
Loving you to me came easy  
Now loosing you will change my life no doubt  
In a way I'm glad it's over  
In another way it tunes me inside out

In a way I guess it's better  
Even though there's nothing good about goodbye  
But I know I couldn't hold you  
Now you found the wings and you need room to fly  
It's for sure I'm gonna miss you  
But I guess that's what goodbye is all about  
In a way I'm glad it's over  
In another way it tunes me inside out

On the one hand I know I'll be better off once you're gone  
But I find a lot of heartaches on the other  
And I can't say I look forward to those nights I'll be alone  
And I wonder will there ever be another  
'Cause loving you to me came easy  
And loosing you will change my life no doubt  
In a way I'm glad it's over  
In another way it turnes me inside out  
In a way I'm glad it's over  
In another way it turnes me inside out
