

## Stay In My Life

The Cats

don't try to fool me, `cause I feel it  
don't play that crying-eyes game  
and don't ask me how I came to know it  
it turned me upside down  
it turned me inside out  
how can I ever see that boy and feel the same

how could I know that you've been lying  
how could you hide it all the time  
how proud was I when we got our baby  
you made a fool of me  
our baby proved to be  
your son alright but never was a son of mine

how do you see us going on  
don't you believe it being wrong  
say goodbye, say goodbye

stay in my life, why don't you stay in my life  
I need you to love you so stay in my life  
don't let me down and we'll be getting around  
I need you forever and one more day  
and together we'll survive

what am I supposed to do if I were losing you  
what am I to say if you were gone away  
you are all I have and hearing little Joey laugh
