

Where Have I Been Wrong

The Cats

I've searched the places, I've searched them all
Searched among the faces, searched along the road
Where am I to find you, where am I to go
Never understanding, why you walked out on me
Please tell me, where have I been wrong

Where have I been wrong, where have I been wrong
Am I to blame, for loving you
Where have I been wrong, I can't go on
I can't maintain, with someone new

I don't feel the cold rain, I don't feel the wind
Walking round in circles, never reaching the end
Where am I to find you, where am I to go
Never understanding, why you walked out on me
Please tell me, where have I been wrong
