

# Wanting This

The Chain Gang of 1974

Remember when we improvised  
And felt it on that long drive?

Fantasize...  
But pleasure never happens on the first try

You did it to me  
I was so all up there in my head  
When I saw a shimmer of what could've been  
So let it down  
This will be much better when we're both high  
On the first time  
So give it to me

Tell me now how much you have wanted this  
(Please tell me now)  
(Please tell me now)  
Two hearts stand still with all that we've missed  
(Please take me now)  
(Please take me now)

Televised the seconds leading up to when we collide  
Take your time  
I will not be rushing when I'm inside  
Do what you please  
I know we are furthest from a dream  
So go slow  
None of this is make believe  
Oh, pull me down  
This is so much better than the first time  
On that first night  
So give it to me

Tell me now how much you have wanted this  
(Please tell me now)  
(Please tell me now)  
Two hearts stand still with all that we've missed  
(Please take me now)  
(Please take me now)

Loneliness will fade with this heaviness  
So tell me now how much you have wanted this  
(Please tell me now)  
(Please tell me now)  
(Please tell me now)  
(Please tell me now)  
(Please tell me now)  
(Please tell me now)  
(Please tell me now)  
(Please tell me now)  
(Please tell me now)  
(Please tell me now)

Tell me now how much you have wanted this  
(Please tell me now)  
(Please tell me now)  
Two hearts stand still with all that we've missed

(Please take me now)  
(Please take me now)  
Loneliness will fade with this heaviness  
So tell me now how much you have wanted this  
(Please tell me now)  
(Please tell me now)
