

Cloud Symmetry

The Chant

Red clouds are gathered
To give you solace
Red clouds are gathered
And we lift our eyes
They are building a symbol...
For a while you stared at the sky
Until the heart gave in
No matter if there's nothing beyond
You had found a balance
Red clouds are gathered
To console the lonely
Red clouds are gathered
And I look up to the sky
You had found a balance
They are building a symbol...
