

## Bad Days

The Charlatans

I get these bad days baby, I just don't know  
I'm in my own world honey, I don't know  
And you can play me in a world of fools  
'Cause You know that you're no friend of mine

I get these bad dreams lately I just don't know  
There's a death cloud hanging over you  
It's been too long since I told you  
You're no friend of mine

I get these bad days baby I just don't know  
I'm in my own world honey I don't know  
And you can play me in a world of fools  
'Cause You know that you're no friend of mine

I get these bad dreams lately I just don't know  
There's a death cloud hanging over You  
It's been too long since I told you  
You're no friend of mine

Playing dead under the covers  
I don't feel like ever waking up  
Playing dead under the covers  
I don't feel like ever making up

Oh! We could never be desperate  
I feel so much younger than yesterday

I get these bad days baby I just don't know  
I'm in my own world honey I don't know  
And you can play me in a world of fools  
'Cause You know that you're no friend of mine

I get these bad dreams lately I just don't know  
You have a death cloud hanging over You  
It's been a long time since I told you  
You're no friend of mine

Oh, we could be end love  
Oh, younger than yesterday
