

# NYC (There's No Need to Stop)

The Charlatans

New York city 7 o'clock  
Giving it up for the vintage look  
Listening to the radio asking  
What's the deal boys  
We're into the wild unknown  
A freak show  
A place we call home

We don't need to educate  
We only want to stay up late  
Looking for these broken joints  
Take in a peepshow?  
We need to be told the reason  
We're all being sold

New York say what!  
I love you, I tell you,  
There's no need to stop!  
There's no need to stop!

Underground counter culture  
Eat you up like a hungry vulture  
Look at you half alive  
Like Dr Jeckal and Mr Hyde  
You'll never see what I seen  
You do last night

New York say what!  
I love you, I tell you,  
There's no need to stop!  
There's no need to stop!  
There's no need to

New York City 7 o'clock  
Giving it up for the vintage look underground  
I love this raps  
It's now or never  
A reason to live  
A reason to die

New York say what!  
I love you, I tell you,  
There's no need to stop  
There's no need to stop  
There's no need to

We all need to be told  
We all need to be told (why)  
We all need to be told
