

## The Forgotten One

The Charlatans

I know where the past begins and the future begins  
Time is my friend. Maybe the devil took your name  
Hung it around your neck like a chain. I didn't see it then, I  
see it now  
My friend. I've taken every opportunity  
Tried to be everything you'd want me to be  
So, why do you have to talk like that?
