

Dig A Little Deeper

The Cheetah Girls

No one can hold us back when we're set to go
No one can tell us that we're not ready when we're ready to flow

Lead by example, here's a sample on the floor
Yeah, try a little harder, move a little faster
If you can't find the strength you're after

Dig a little deeper, dig a little deeper
Just like we had to do, just like we had to do
You got to dig a little deeper, dig a little deeper

We're celebrating like we never did before
Went through the fire, took it higher, check the score
If you wanna be a leader check your ego at the door
Yeah, be a trendsetter, be a go-getter
If you want to do everything better

Dig a little deeper, dig a little deeper
Just like we had to do, just like we had to do
You got to dig a little deeper, dig a little deeper

Don't ask the question what it is you should do
Just take some action, it'll come to you
It's all connected all you have to do
Is move baby, move baby, yeah, yeah, yeah

You're on a roll, let it go, lose control
Don't you know it's the best thing you can do?
Go!
Dig a little deeper

Dig a little deeper, dig a little deeper
Just like we had to do, just like we had to do
You got to dig a little deeper, dig a little deeper
Just like we had to do, just like we had to do

You got to dig a little deeper, dig a little deeper
Just like we had to do
You got to dig a little deeper, dig a little deeper
Yeah
