

# Falling For You

The Cheetah Girls

But I stumble when I speak  
Melt, When our eyes meet  
still can't believe that  
I'm falling for you

I Can't fight these feelings  
Can't find a reason  
Still can't believe that  
I'm falling for you, For You

Ooh, Yea, Yea

Wish I could say what i'm Thinking (but I don't)  
I keep my feelings inside (to run and hide)  
The Way i'm feeling about you (Cause I don't)  
I don't know the way you'll reply.

I don't wanna take a chance boy  
and ruin what we have boy  
What do we share together it's cool

But I stumble when I speak  
Melt, When our eyes meet  
still can't believe that  
I'm falling for you

I can't fight these feelings  
Can't find a reason  
Still can't believe that  
I'm falling for you, For You

I gonna stop waisting time (Step to you)  
here's what's been on my mind (Me and you)  
I wanna take this thing further (Wasup wit dat?)  
Not gonna sit here and wonder

So i'm gonna take a chance boy  
and go for what I know boy  
hope that I don't wound up a fool

But I stumble when I speak  
Melt, When our eyes meet  
still can't believe that  
I'm falling for you

I can't fight these feelings  
Can't find a reason  
Still can't believe that  
I'm falling for you, For You

When our eyes meet  
I get so weak  
Still can't believe that i'm falling for you

I stumble when I speak  
Melt, When our eyes meet  
still can't believe that

I'm falling for you

I Can't fight these feelings  
Can't find a reason  
Still can't believe that  
I'm falling for you

But I stumble when I speak  
Melt, When our eyes meet  
still can't believe that  
I'm falling for you

I can't fight these feelings  
Can't find a reason  
Still can't believe that  
I'm falling for you, For You
