On My Way

The Cheetah Girls

I used to say when I was a child
I could do anything
Be everything
I though I had the world in my hands
And everything revolved around me
It was all about me

I wanted this and that and more
I always said the sky's the limit
But I didn't think it'd be so hard
Life's like a maze
I got lost in it
Now my perspective is changed

I can't say I see the future so
I'm gonna take it day to day
I may not know just where I'm going but
I know that I'm on my way
On my way
On my way
On my way
On my way
On my way
On my way
On my way
On my way
On my way
On my way
On my way
On my way

I changed my mind and changed back again
Though I had moved on
And each time was different
I woke up one day and realized
I was in the same place
Doing the same things

So right now I'm kinda confused
About my life and where I'm going
Seems like I'm going in circles
Right or left
Which way to choose?
I've gotta a map, no destination
I don't know which way to go

I can't say I see the future so
I'm gonna take it day to day
I may not know just where I'm going but
I know that I'm on my way
On my way
On my way
On my way
On my way
On my way
On my way
On my way

On my way
On my way
On my way
On my way
On my way

I'm gonna take this road
Not knowing where it will go
Leaving today with no answers
Okay, but I don't know
There's gonna be some pain
Some days might feel so long
But you can't fall off the floor
So up is the only way

I can't say I see the future so
I'm gonna take it day to day
I may not know just where I'm going but
I know that I'm on my way
On my way
On my way
On my way
On my way
On my way
On my way
On my way
On my way
On my way
On my way
On my way
On my way

I can't say I see the future so
I'm gonna take it day to day
I may not know just where I'm going but
I know that I'm on my way
On my way
On my way
On my way
On my way
On my way
On my way
