

# Borderland

The Chevin

Under the desert sun  
Under the desert sun  
We used to dream as one  
We used to dream as one  
Where has the river gone  
Oh where has the river gone  
It used to flow upon  
This borderland

In borderland we are the light of the living  
In borderland we are the blood of a desert war  
Oh oh oh oh oh oh oh

Under the desert sky  
Under a desert sky  
We used to live and die  
Under a desert sky  
Where has the magic gone  
Where has the magic gone  
It used to dance, used to clap our hands  
And fill the sky with its song

In borderland we are the light of the living  
In borderland we are the blood on the desert floor  
In borderland we are the light of the living  
In borderland we are the blood of a desert war  
The blood of a desert war  
Oh oh oh oh oh oh oh

Under the desert sun  
Under the desert sun  
Under the desert sun  
We dream as one  
Under the desert sun  
Under the desert sun  
Under the desert sun  
We dream as one  
We dream as one  
Because we are one  
Oh oh oh oh oh oh oh

In borderland we are the light of the living  
In borderland we are the blood on the desert floor  
In borderland we are the light of the living  
In borderland we are the blood of a desert war  
The blood of a desert war
