

# Down Down Down

The Chiffons

(One, two  
One, two, three)

I don't know just where to start  
I've lost that feeling in my heart  
And though it's gonna hurt inside  
It's something I just cannot hide

Down, down, down  
My love went down, down, down  
Down to the ground, ground, ground  
I don't know why  
But try not to cry

Although I know you really care  
I can't hang on if it's not there  
Surely, you don't want me to stay  
You're so much better off this way

Down, down, down  
My love went down, down, down  
Down to the ground, ground, ground  
It disappeared  
But dry your tear

When you find that love is gone  
And you just don't care  
You can't hang around  
All my love has been returned and  
So it hurts, it hurts, it hurts  
Down, down

Down, down, down  
My love went down, down, down  
Down to the ground, ground, ground  
My love went down, down, down  
Down to the ground, ground, ground  
My love went down, down, down  
Down to the ground, ground, ground
