

# Teach Me How

The Chiffons

You were my shoulder to lean on  
What will I do when you're gone?  
You who had all of the answers  
Teach me how, teach me now

Teach me not to cry  
When you say goodbye  
Show me how I can respond  
And get along  
Without your lovin'

Teach me how to hide  
The way that I feel inside  
Show me how to let you go  
Although I know  
That I still love you

You were my shoulder to lean on  
What will I do when you're gone?  
You who had all of the answers  
Teach me how (Teach me how), teach me now (teach me now)

Teach me how to face the world  
Like a grown-up girl  
Show me how to make believe  
That I don't need  
Your lovin', baby

Teach me how to face the world  
Like a grown-up girl  
Show me how to make believe  
That I don't need  
Your lovin', baby
