

## When Summer's Through

The Chiffons

All summer long I'll be praying that you  
Will still feel the same when the summer is through

Come back when the summer is over  
I'll wait for you so impatiently  
I'm longing to see you in September  
This summer can't go by soon enough for me

The nights, they go by oh so slowly  
My days are all spent thinking of you  
Can't you see you belong to me, oh, my darling  
Hurry back when the summer is through

The nights, they go by oh so slowly  
My days are all spent thinking of you  
Can't you see you belong to me, oh, my darling  
Hurry back when the summer is through

All summer long I'll be praying that you  
Will still feel the same when the summer is through  
When the summer is through  
When the summer is through
