

## Effloresce and Deliquesce

The Chills

Effloresce and deliquesce, carefree sparkling effervesce Sparks  
ignite the starry-eyed, soon a supernova

Effloresce and deliquesce He bursts froth and then regrets She  
brakes down and when he goes slowly ices over

Effloresce and deliquesce She may weep but he knows best Crysta  
llize before his eyes Tears can't conquer power

Now they're acting, watch this happening Then undergo change to  
tease the other

Now they're fighting, this part's frightening Lies are flying T  
he silence boiled over

Over-reaching Se them trying Counter-  
acting changes in each other

Other forces force them higher Tears are scalding Anger flows l  
ike fire

Effloresce and deliquesce She burst forth and then regrets He b  
reaks down and when she goes slowly ices over

Effloresce and deliquesce He is weary, needing rest She is too  
but in an hour thy burst into flower
