

Class Oppression

The Chisel

Maggie, Maggie, Maggie... Dead!

Three million food banks in the past two years
Rising child poverty confirming human fears
Tell me what makes this fucking country great
When tory austerity takes kids food off their plate

Poverty increases, posh cunts thrive
Like when the cunts wanted Liverpool in managed decline

We're talking class oppression
You never learn your lesson

It's all coming, coming to a head
Seven years on since she kneeled over dead
Working mans brought... brought to his knees
Force fed lies its a populist disease
Can't shake the feeling that we've been here before
Hillsborough to Grenfell, rotten to the core
Try to deceive us, tell us that we're scum
Brainwashed and controlled, staring at the sin
