

Come See Me

The Chisel

No more talk, no more threats
Mouthy little cunt come and show me what's next
All this fucking talk about what you're gonna do
Same fucking bollocks but no action from fucking you

Come see me
Waste of fucking life
Come see me
Basement dwelling prick
Come see me
Xenophobic cunt
Come see fucking me

Always talking but in hiding
When it comes you drop back
I tell my mates no need to worry
No matter what I've got your back
Their fucking with you, they're fucking with me
And if the cunts wanna come well then we'll see
Sick of little mugs with their empty threats
When they try to back it up they fold like little melts

Come see me
Waste of fucking life
Come see me
Basement dwelling prick
Come see me
Xenophobic cunt
Come see fucking me

Come see me cunts... come see me
