

Cuts Like A Knife

The Chisel

You got a fire inside and it always burns
You know you wanna give 'em what they all deserve
You dream about the moment when it gets on top
I know once you get going, you will never stop

I see your hatred
Hatred
It cuts like a knife
You're gonna lose control of what you think is right
I see your hatred
Hatred
A shot in the night
You gotta keep your head when you wanna fight

I see your hatred
Hatred
It cuts like a knife
You're gonna lose control of what you think is right
I see your hatred
Hatred
A shot in the night
You gotta keep your head when you wanna fight

Tell me what you're gonna do
'Cause you're a different man from your youth
When your wife sits pregnant with your second child
You know what they expect of you, but what do you choose?
Tell me what you're gonna do, 'cause you're a different man from your youth
Tell me what you're gonna do
Tell me what you're gonna do, 'cause you're a different man from your youth

Seen it many times and you know the score
Following a path we've all seen before
I know you wanna stick 'em, they deserve it as well
But do you wanna spend your final days in a cell?

I feel your hatred
Hatred
It cuts like a knife
You're gonna lose control of what you think is right
I feel your hatred
Hatred
A shot in the night
You gotta keep your head when you wanna fight

I feel your hatred
Hatred
It cuts like a knife
You're gonna lose control of what you think is right
I feel your hatred
Hatred
A shot in the night
You gotta keep your head when you wanna fight

Tell me what you're gonna do
'Cause you're a different man from your youth
When your wife sits pregnant with your second child

You know what they expect of you, and it's yours to lose
Tell me what you're gonna do, 'cause you're a different man from your youth
Tell me what you're gonna do
Tell me what you're gonna do, 'cause you're a different man from your youth

Tell me what you're gonna do, 'cause you're a different man from your youth
Tell me what you're gonna do
Tell me what you're gonna do, 'cause you're a different man from your youth
Tell me what you're gonna do, 'cause you're a different man from your youth
Tell me what you're gonna do
Tell me what you're gonna do, 'cause you're a different man from your youth
Tell me what you're gonna do, 'cause you're a different man from your youth
Tell me what you're gonna do, 'cause you're a different man from your youth
Tell me what you're gonna do
