

## Enough Said

The Chisel

Pints with my mates and I'm feeling alright  
When some snotty little cunt came and ruined my night  
Said you better watch out or you'll end up dead  
I looked him in the eye and this is what I said

Enough said  
Enough said

I didn't ask for your reply, I'm thinking  
I've already worked out the hows and whys  
No interest in what you've read  
'Cause as soon as I stop talking, that's enough said

Enough said
