

Evil By Evil

The Chisel

So you fuckers expected more?
From a kid grinded down, left to rot on the floor
And you say this never happened before
When the battered dog is standing at your door

Evil by evil
Hate by hate
Evil by evil
Hate by hate
Evil by evil
Hate by hate
Evil by evil
Just you fucking wait

And there's nothing you can do
And you'll deal with every action 'cause we're a product of you
Promise of a system, it's too late
You won't miss 'em, hate by hate

Denounce the emotions with lies
When the cries turn to anger and you wonder why
When your shit, it no longer flies
Underlying hatred from your social trials

Evil by evil
Hate by hate
Evil by evil
Hate by hate
Evil by evil
Hate by hate
Evil by evil
Just you fucking wait

And there's nothing you can do
And you'll deal with every action 'cause we're a product of you
Promise of a system, it's too late
You won't miss 'em, hate by hate

Evil by evil
Hate by hate
Evil by evil
Hate by hate
Evil by evil
Hate by hate
Evil by evil
Just you fucking wait
