

Force Fed

The Chisel

What makes you think everything is fine when life expectancy is
on the decline
Force fed government lies

Martyrs will fall for our nations pride
They use them
Then they fucking die
This government is a lie

Oh, you've heard it before?
I'll say it again

No way to believe it will all be fine when your life expectancy
is on the decline
Force fed government lies

Won't be a martyr or play the puppet
The cunts have got you looking like a fucking muppet
This government is a lie

Oh, you've heard it before?
I'll say it again

Sick to fucking death of all these fucking lies
These fuckers want control of their lives
This government is a lie

How much more will have to die?
How much longer do we swallow their lies?
Force fed government lies

Oh, you've heard it before?
I'll say it again
