

Nation's Pride

The Chisel

A nations pride
Communities destroyed
Tension is at an all-time high
If you fight to survive then the dangers rise
When they tell you who's to blame for it all

It is shit
You fucking pricks
Scapegoating the marginalised

Who's to blame?
It's always the same
Upper classes tell you what to decide

There's an anger on the street
No matter who you meet
Your fellow man is always the one
The government is persistent, the medias consistent
In dividing those who should want their blood

It's not right
I won't stand by
Cities burn
People die
Fuck them all
I mean it all
This shit isn't working at all

It is shit
You fucking prick
Scapegoating the marginalised

Who's to blame?
Always the same
Upper classes tell you what to decide
