

# Not The Only One

The Chisel

My father always said to me, you gotta work hard provide for your family  
I thought that he was right (alright)  
Then I got myself a trade  
For a working class boy, it's the only way I'll ever earn a decent wage  
But around me, I see a lot of poverty  
Underpaid workers being threatened with redundancy

You can have it all and then it's gone  
Please say I'm not the only one  
You can have it all and then it's gone  
Please say I'm not the only one

And it doesn't sit right with  
No, it doesn't sit right with me

I read about 1831, what the men and women of Merthyr had done  
They were screaming for their rights (their rights)  
It's a New Year now but nothing's changed  
The working class just want a decent wage and we'll keep up the fight  
I can't believe what I see, it's a middle-class soapbox talking right at me and they don't speak for me (not me)  
I won't waste my time politicking, when its time for action I'll be there kicking  
We won't fade away, no way

You can have it all and then it's gone, please say I'm not the only one  
You can have it all and then it's gone, please say I'm not the only one

And it doesn't sit right with me  
No, it doesn't sit right with me

Look around, what do I say, our people in grips of poverty  
I ask myself, what can I do? I know we deserve better, I know that it's true  
So when you're feeling down on your luck, like you're down and you no longer give a fuck  
Remember brother I've been there before; we will survive and we will get through

You can have it all and then it's gone, and I know I'm not the only one  
No I won't stop singing this song, cos I know I'm not the only one

You can have it all and then it's gone, and I know I'm not the  
only one  
No I won't stop singing this song, cos I know I'm not the only  
one

We might be down but we're never out  
We might be down but we're never out  
We might be down but we're never out  
We might be down but we're never - fucking - out!
