

Retaliation

The Chisel

Everybody's pushing what they think is right
But my minds made up alright
Close up shop on your ideals
Couldn't give a fuck about how you feel
Think about the people you are hurting most
At the bottom of the ladder whilst you just boast
You've got your security
So leave the talking to people like me

Retaliation - paybacks on the mind
Retaliation - pay 'em back in kind

Call me ignorant the door is closed
Take a look cos the damage shows
If you don't like it that is tough
'Cos I know what I know

If ya gonna fight - do it right
Got no time to waste alright
We shout the truth, we know what's real
The snobs at the top don't know the deal
An ignorance that runs too deep
Can't understand how the fuck you sleep
So much on your conscious, do you care?
Your paradise is my nightmare

Retaliation - paybacks on the mind
Retaliation - pay 'em back in kind

Call me ignorant the door is closed
Take a look cos the damage shows
If you don't like it that is tough
'Cos I know what I know

Retaliation - paybacks on the mind
Retaliation - pay 'em back in kind
