

Shit Life Syndrome

The Chisel

Come take a walk down the promenade strip
Your visit won't be nice if you treat it like shit
Locals anger how it's portrayed in the news
It's all bottled up and directed at you

Shit life syndrome
Isn't that what you said?
Shit life syndrome
You're gonna get put to bed

How can you expect people to act nicely
They've all been left on the edge of society
You'll never think what its people have been through
And you'll never fucking care 'cos it's not affecting you

Shit life syndrome
Isn't that what you said?
Shit life syndrome
You're gonna get put to bed

What the fuck did you just say?
Gonna tell me that I'm wrong
I know that it might seem strange to you
But this is the life that I always knew

Shit life syndrome
Isn't that what you said?
Shit life syndrome
You're gonna get put to bed
