

## Circle Slide

The Choir

Imagine one perfect circle  
Above the stratosphere  
Where lovers hide away  
And children cheer  
Because the ground has melted  
Where the devil stood  
Never mind the carnival  
In your own neighborhood

CHORUS

Come on let's ride  
The circle slide  
Come on let's ride, ride  
The circle slide

Around my neck against my heart  
I wear a wooden cross  
And sometimes I remember  
What freedom cost  
Shake off your golden shackles  
Children of time no more  
Consider now the crimson crown  
The Man of Sorrows wore

CHORUS

I know it's hard to imagine  
When someone makes you cry  
Fire in the heavens  
And laughter in the sky  
Just let the wind blow through your spirit  
Let the sun shine on your face  
Let's look into each other's eyes  
And sing Amazing Grace

CHORUS
