

Sedate me
I'm fated to be seriously delirious
It's not far with all my heart
And I can't even understand a thing or two
What you gonna do

Aaah, aaah

If anyone thinks this is easy
When everyone thinks it's deliberately done
These pieces are easy, they try to put them all together
It's impossible, do you think you could please me

Deflated, undersaturated
I'm captivated, delirious
I hope so with all my soul
And I can almost comprehend night from day
What you gonna say

Aaah, aaah

If anyone thinks this is easy
And everyone thinks it's deliberately done
These pieces are easy, they try to put them all together
It's impossible, do you think you could please me

Oooh, oooh
The pieces are easy
Try to put them together
Oooh
Try to put them all together

And I, I can almost recognize wrong from right
Almost but not quite

If anyone thinks this is easy
And everyone thinks it's deliberately done
These pieces are easy, they try to put them all together
It's impossible, do you think you could please me

You're delirious
It's deliberately done
Delirious
Do you think you could please me
